

Christmas in July

Sponsor Packet

Thank you for considering sponsorship of our first annual Women's Christmas in July Fundraiser.

Heart of Hope has been serving young women experiencing unplanned pregnancy since 2010 through a Christ-centered residential program, on-campus education, with access to medical care. Today, our three homes allow us to serve up to seven moms and their babies at a time. Our maternity home supports four young women ages 11-20, while our two transitional living apartments provide continued care for up to three young moms and their babies as they work towards independence.

This Christmas in July, we're inviting women in our community to join us in the mission of Heart of Hope—sharing in the gift of healing, life, love, and hope for our residents and beyond.

Thank you for helping us bring joy and cheer to the women we serve.

Bless you,

Jodi Burns
Executive Director
